

# PaveCoat

*Concrete Colour made easy!*

**Australia's #1  
Concrete Sealer**

**PaveCoat** is a top-performing solvent-based acrylic penetrating sealer that offers impressive durability in both clear and a vast selection of colours. Its sealing, colouring, and protective properties make it an excellent choice for creating surfaces that are ideal for pedestrian and light vehicle traffic. Whether you prefer a gloss or matte finish, **PaveCoat** comes in a wide range of NuTech standard colours to suit your design preferences. With **PaveCoat**, you can trust that your concrete surfaces will look great while providing long-lasting protection.

**PaveCoat** concrete sealer is manufactured from acrylic polymer resin and is stabilised for all types of concrete, including:

- Paving
- Driveways
- Factories
- Workshop floors
- Service Stations
- Tilt slab construction
- Asbestos and cement sheeting
- Slate flooring
- Concrete roof tiles

**PaveCoat** clear and colours are recommended for:

- Plain concrete
- Pattern paving
- Stamped impression paving
- Stencil paving
- Spray on finish paving
- **PaveCoat** is highly durable and resistant to oil and most chemicals.

Before PaveCoat Application

After PaveCoat Application
